

What's up metro's.

September went out with a bang! If you didn't catch it or if you missed it! Music in the metro brought Shondrae " Mr. Bangladesh " Crawford home and did it up real nice. On Saturday they had a nice party for him down town and than on Monday he got the proclamation from the Mayor and proclamation from the Govern and a key to the city did i forget to mention he came to music in the metro and hang out and talked to the kids he went to Des Moines Public School and talked to the kids and that evening attended the banquet at the Logan Boys and Girls Club so all in all his home coming was a big success.

See which student won the 38x46 inch poster of Shondrae for being the first one to bring an A on a test, see results in our student spot light page. It was a heart felt moment when Shondrae dedicated his key to the city to Music in the metro intern Kyle Neddo who was born blind, but does not use his handicap to stop him from going for his dream of being a industry producer. There were close to four hundred people in attendance. We were also honored to have entertainment attorney Bernie Lawrence Watkins in attendance so it was a mega big event for the Logan center and Music In The Metro. We are now working out the details in which the two industry giants will be working with music in the metro, so stay tuned to see what happens next. We will be sending out thank you all week so if you had anything to do with the event jumping off be watching your mail till next month this is Mr. Rick and I'm out.
